PAGE

Tada, K. Demonstration of an Accumulation of Galactose-1-Phosphate in the Liver from Congenital Galactosemia 1

Ishiguro, K. Blood Pantothenic Acid Content of Pregnant Women 7

Shibuya, T. Icteric Type of Infectious Mononucleosis in a 2-Month-old Infant 11

Ebe, M. and **Mikami, T.** The Effects of the Intensity of Photic Stimulation on Cortical Evoked Potentials in Arousal and during Sleep 17

Ishikawa, Y., Fukushima, M. and **Uno, H.** Observation on Cancer Cells in the Blood of Patients with Carcinoma after Operation and Chemotherapy 25

Okamura, K. The Transitional Phenomenon in Contraction of Uterine Muscle 32

Niwayama, G. Cytomegalic Inclusion Desease of the Submaxillary Salivary Gland. A Case Report and a Review of the Literature 44

Koizumi, H. Electron Microscopy on the Pre- and Post-natal Development of the Pancreatic Acinar Cell of the Mouse 58

Taira, N. and **Okuda, J.** Sensory Transmission in Visual Pathway in Various Arousal States of Cat 76

Yamagata, S., Sasaki, Y., Uchiyama, T., Hirai, J., Wakui, A., Ohneda, A., Chiba, T. and **Maruhama, Y.** The Effects of Long-term Administration of Sulfonylureas on the Carbohydrate Metabolism in Normal and Alloxanized Rats; Have Sulfonylureas a Diabetogenic Action? 97

Vol. 78, No. 2, November 25, 1962

Beary, F.D. and **Weiss, H.A.** Comparison of Various Techniques Used to Determine Thyroid Iodine Uptake 117

Kudo, Z., Oono, T., Miyazawa, H., Takahashi, J. and **Chikaoka, H.** An Infantile Case of de Toni-Debré-Fanconi's Syndrome Probably due to "Renal Immaturity" 122

Mizuno, T. Influence of Splenectomy upon Cerebral Excitability of Rabbits 129

Okamura, K., Nishiyama, A. and **Suzuki, T.** Direct Actions of Ovarian

Hormones and the Related Compounds on the Uterine Muscle in vitro 134
Tasaki, K., Norton, A. C. and **Fukada, Y.** Effect of Optic Nerve Stimulation on the Intraretinal ERG of the Cat 142
Okuda, J., Taira, N. and **Motokawa, K.** Spectral Response Curves of Postgeniculate Neurons in the Cat 147
Niwayama, G. Etiologic Factors in Obstruction of the Superior Vena Cava 158
Saito, A. On the Essential Nature of the Hematopoietic Function of Bone Marrow
Report 11. Studies on Immunity and Allergy Observed from the Standpoint of the Hematopoietic Phases of the Bone Marrow and the Fields of Blood Defense Reaction, with Special Reference to the Genetic Mechanism of Acute Exanthema 166
Tsukada, S. and **Aikawa, A.** Some Considerations on Pathogenesis and Treatment of Acrodermatitis Continua Supprativa (Hallopeau) 195
Yamagata, S., Shoji, T., Kawashima, S., Narasaka, T., Sato, S., Kawamura, M., Matoba, N. and **Wakasa, H.** Glomus Tumor of the Stomach 202
Motokawa, K. and **Ogawa, T.** The Electrical Field in the Retina and Pattern Vision 209

Vol. 78, No. 3, December 25, 1962

Abe, N. Effect of Section and Compression of the Optic Nerve on the ERG in the Rabbit 223
Ishida, N. Metabolism of Catecholamines in Hyper- and Hypo-thyroid Patients 228
Nakao, T. and **Gotooda, T.** The Bile and the Pancreatic Ferments in Normal Infants and Children 243
Nakao, T. and **Gotooda, T.** Pancreatic Ferments in the Duodenal Fluid in Mumps —Subclinical Pancreopathy in Mumps— 249
Shibuya, T., Yoshioka, K., Sato, M., Ishigaki, A. and **Tat-Keung, N.** Congenital Leukemia within a Family with Two Cases of Stomach Cancer and Parental Consanguinity 254
Koyanagi, T. and **Takanohashi, T.** Effect of Single Deficiency of Vitamin A, Thiamine, Riboflavin or Ascorbic Acid on the Dark Adaptation 258
Maki, M. Pathophysiology of Plasmin System I. Routine Measuring Method of Plasmin System in This Clinic 264
Demura, H. The Adrenal Glands in Liver Disease —Histopathological

65 166A C 21

Studies on Functional Zonation and Venous System of the Adrenals— .. 274

Itahara, K., Musha, D., Ito, K., Tominaga, T., Jimbo, T. and **Sato, T.** Studies on Water and Electrolyte Metabolism Using Heavy Water, Radiosodium and Radiopotassium 293

Saito, A. On the Essential Nature of the Hematopoietic Function of Bone Marrow

Report 12. Clinical Observation of Infectious Diseases from the Standpoint of Hematopoietic Phases of the Bone Marrow and the Blood Reaction Fields, with Special Reference to the Causative Mechanism of Sepsis and Bacillemia 302

Motokawa, K., Taira, N. and **Okuda, J.** Spectral Responses of Single Units in the Primate Visual Cortex 320

Vol. 78, No 4, January 25, 1963

Katsushima, N. A Method for Quantitative Estimation of Leukocyte Peroxidase in Peripheral Blood 339

Koyanagi, T., Hareyama, S. and **Kikuchi, R.** The Effect of Water-washed Rice in the Diet on the Growth, Excretion of Sodium in Urine and Blood Pressure of Rats 347

Sasano, N. and **Wakasa, H.** Pituitary Carcinoma Presenting as Nasopharyngeal Tumors with Reference to Ectopic Origin
A Report of Three Cases 352

Maki, M. and **Nagasawa, K.** Pathophysiology of Plasmin System
II. Fibrinolysis and Plasmin (Activator)—Inhibitor Ratio 363

Nakao, T. and **Gotooda, T.** The Bile and the Pancreatic Ferments in Infectious Hepatitis of Children 370

Ishiguro, K. Studies on Pantothenic Acid Intake
I. Pantothenic Acid Content in Japanese Foods 375

Yokota, T. and **Fujimori, B.** Mechanism of Reversal of Vasomotor Reflexes Produced by Stimulation of the Sciatic Nerve 381

Ishida, N., Hinuma, Y., Sekino, K., Shiratori, T., Kudo, H., Ikeda, T. and **Sato, S.** Experimental Human Influenza Infections Studied by Means of Immunofluorescent Staining of Nasal Smears 390

Nakano, M. Electron Microscopic Study of the Transport Mechanism of the Human Placental Villi 398

Saito, A. On the Essential Nature of the Hematopoietic Function of Bone Marrow

Report 13. Correlations between Development of Clinical Feature and the Hematopoietic Phases of the Bone Marrow and the Body Defense Reaction Fields 410
